

ICT for Casinos and Gaming Centers

Casino security managers face the immense pressure of safeguarding assets, staff, and patrons in a fast-paced, often chaotic environment. Theft and equipment tampering are constant threats that need to be neutralized. Key areas like gaming tables demand vigilant surveillance, while access to restricted zones such as cash cages and count rooms must be tightly controlled. Protection must also extend to other facilities, including restaurants, hotels, convention spaces, and retail shops.

That's where ICT comes in.

Thanks to ICT our business has increased 50% over the last two years. - **Bobby Wilbanks, Vice President of Integrated Technology at Source 1 Solutions**

Key Features

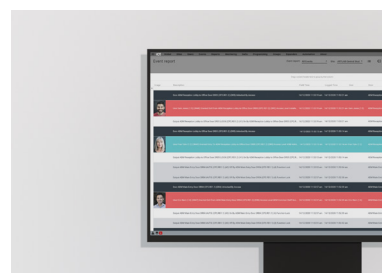

Durable and Vandal Resistant

In a chaotic environment, you want products that are built to last under pressure. Our high-impact accessories are engineered to withstand extreme force - including hammers and baseball bats - so you can have complete confidence in your protection.

Eyes On It All

Respond to threats faster thanks to interactive maps that give you complete site control from a single screen. With instant pop-up alerts and visual confirmation on your dashboard, you can manage incidents efficiently and easily.

Compliance Made Simple

Effortlessly meet your compliance obligations with powerful, automated reporting. Our built-in reports for events, mustering, attendance, and users are automatically sent to the right people, simplifying your entire compliance process.

Who we are

We believe in the confidence and peace of mind that comes from a feeling of true security.

My vision is to make access, intrusion, and automation easy for our customers. A lot of security products are complicated and only offer one service. Our driving idea is that you create success – and value – when you combine them into a unified solution. - **Hayden Burr, Founder & Chief Innovation Officer, ICT.**

Integrated Control Technology (ICT) is an award-winning global manufacturer of security solutions. For more than 20 years, ICT has led the way with their unified systems for access control, intrusion detection, and building automation.
