

OSDP Verified™ Certification Report

ICT

Applicant - 017

Secure PD

June 2022

Overview

ICT has submitted 3 devices which all use the same firmware. ICT provided documentation, and devices to the OSDP Verified™ AZ and then NY test facilities. These devices met the criteria for Secure PD and listing on the OSDP Verified™ web site.

Devices

| Brand | Model |
|-------|----------------|
| tSec | PRX-TSEC-MINI |
| tSec | PRX-TSEC-STD |
| tSec | PRX-TSEC-EXTRA |

Firmware

1_04_bd-277__MOC4

104.1 Build 21 (PDID output)

Results

The devices were tested and found compliant with the PD Secure profile.

Notes

1. Firmware version in osdp_PDID requires formula to obtain version number (see above where firmware version and PDID output are both listed)

Approved for PD Secure, 9 June 2022

OSDP Verified™ Certifiers

Babak Javadi, The CORE Group

Jonathan Horvath, Z-bit Solutions
