

Benefits of an ICT Intercom.

ICT's intercom range provides an open solution that can operate standalone or seamlessly integrate with Protege systems for a comprehensive experience.

The Protege Touchscreen Entry Station (flush or surface mount) enables two-way audio and live video calling.

The Protege Vandal Resistant VoIP Intercom enables two-way audio.

The Protege Vandal Resistant VoIP Intercom with Camera enables two-way audio and a one-way live video feed.

Key Benefits.

- > Integrate with Protege WX or Protege GX to allow for control of doors, lights, and elevators
- > Intercoms provide seamless two-way communication with compliant phones – just push the button on the intercom and the user will be directed to the pre-programmed number

The Protege Touchscreen Entry Station also provides additional benefits:

- > An intuitive interface for visitors to call tenants, building management, a concierge, or even to off-site locations, such as directly linking guests with corporate housing owners
- > The home page is customizable for the display of floor plans, branding, or advertising
