

Protege Rear-Mount Mortise Lock.

Effortless to install and even simpler to use, the Protege Rear-Mount Mortise Wireless Lock offers a refined, modern design and robust security, ideal for both retrofitting and new build projects.

Key benefits.

- > **Single pane of glass.** Bring access control and security together in one system and give tenants peace of mind, while simplifying oversight and management
- > **No cables.** With no door cabling necessary you can deploy integrated electronic access control in areas where traditional wired locking solutions may not be possible and online connectivity may be a barrier, allowing businesses to reduce labor and materials costs significantly
- > **Outdoor rated.** Create a seamless look from the front entrance to the penthouse with the outdoor-rated version, specifically designed to endure environmental elements
- > **Easy installation.** Thanks to the purpose-built Mobile Configuration App and ICT construction cards, installing a Protege Wireless Lock is as easy 1, 2, 3
- > **One card solution.** With wired TSL card readers and Protege Wireless Locks you only need a single credential to gain access through the building
- > **Customizable style.** At ICT we believe your access control solutions should seamlessly blend form and function. That's why we offer customization options from reader color to handle design and finish
- > **Status at a glance.** With different colors available to signal different modes and setting, the integrated LED indicator provides a read response and status signaling, so you can see whether the lock is unlocked or locked at a glance
- > **Optional accessories.** Tailor the lock to suit your needs with optional accessories for interior deadbolts and key overrides

What is a Rear-Mount Mortise Lock?

The Protege Rear-Mount Mortise Wireless Lock features a latch bolt design, with its electronics and batteries neatly housed in a surface mount pack on the interior side of the door. This clever arrangement offers a streamlined aesthetic, making the Rear-Mount Mortise an elegant addition to any building.
